## PROFILE

Skilled Computer Science graduate with expertise in Flutter for cross-platform applications and backend development using Node.js (basic to intermediate level). Proficient in Firebase, FCM, RESTful APIs, Google Maps, State Management, Clean Arc and UI/UX design. Strong foundation in Object-Oriented Programming (OOP) with hands-on experience in building scalable and high-performance applications.

## EXPERIENCES

### Flutter Developer

PTCP | Peshawar - 2025 (Present)

- Developing cross-platform mobile apps using Flutter with clean UI and responsive UX.
- Leading and mentoring interns in mobile development tasks and best practices.
- Ensuring clean architecture, performance optimization, and smooth UI/UX.
- Integrating REST APIs, Firebase services and optimizing app performance

### Backend Developer (NodeJs)

Next Gen | 2025 (8 Months)

- Developing backend APIs using Node.js, Express.js, and MongoDB to enhance full-stack expertise.
- Implementing authentication, database management, and server-side logic.
- Gaining experience in JWT authentication, Encryption, API Integration.

### Flutter Developer and Graphic Designer

PMYP at PTCP | Peshawar - 2024

- Developed applications using Flutter, focusing on functionality and UI/UX.
- Integrated ML models to enhance functionality and personalization.
- Gained experience in graphic design using Canva and Figma.

### Flutter/Dart and Graphic Designer

Self - 2023 (2 years)

- Developed applications using Flutter/Dart, implementing features such as Firebase, FCM, RESTful API, Google Maps, and State Management.
- Designed professional UIs, logos for apps, and posters using Figma and Canva.

## SKILLS

**Expert-Level** • Flutter & Dart • Firebase • APIs

**Intermediate** • NodeJs • html • css • Tailwind • C++ • Java • SQL

**Basic-Level** • Kotlin • React Native • C# • Python • ejs • php

**Interest** • AI/ML

## PROJECTS

- **Haro GMBH:** Build a delivery app with live tracking, Google Maps integration, and real-time updates to enhance user experience. (German Project)
- **Islam Rise:** Developed an app that displays daily prayer times, includes Quran Complete Quran, and integrates a compass for accurate Qibla direction.
- **Foodel App:** Developed application enabling users to order from their preferred restaurants and track the delivery status in real-time using Google Maps
- **Chat App:** Built a real-time messaging app with support for text and image communication.
- **Courses Recommendation System:** Developed an AI-based recommendation system to suggest courses tailored to user interests.

## CERTIFICATIONS

---

- **Flutter Developer** – PTCP
- **Flutter Developer** – Internship of PSEB
- **Flutter Developer** – Apprenticeship of PSDP under HEC, "Prime Minister's Initiatives – Support for IT Startups, Specialized IT Training, and Venture Capital
- **Material Components for Flutter** – Coursera
- **Data Structure** – STEPIK

## LANGUAGES

---

- **Urdu** (Native)
- **Punjabi** (Proficient)
- **English** (Fluent)

## EDUCATION

---

**BS Computer Science** 2020 – 2024  
Kohat University of Science and Technology
